## SUMMER LANGUAGE PROGRAMS

Divided into two sections, the mornings are spent in a structured classroom environment (15 hours/week), where students will learn the essentials in grammar, reading, writing, and especially speaking and listening. The afternoon will be spent doing a variety of different activities such as swimming, scavenger hunts, visiting different museums, etc where students from all over the world will be able to use and improve their language skills.

On their first day, students will take a placement test and will be placed into different levels based on age and English ability. Though students are separated for class, they will participate in activities as one group, so that all students will be able to learn from one another.

At KLI we know that learning a new language can be fun! KLI's Summer Youth Program combines an intensive language course with the beautiful environment provided by the natural settings of Kingston, Ontario.
